

What We Need From You

Platform is built and connected to Supabase. Complete the items below to move from demo to live sales.

STATUS: Demo ready | Payments: mock mode | Catalog: sample data only

Blocking Go-Live

- ☐ Razorpay account + API keys (test, then live)
- ☐ GSTIN for invoices and checkout
- ☐ Real product catalog (names, prices, stock, descriptions)
- ☐ Product photos (real images or approved stock)
- ☐ Services list + pricing + service cities
- ☐ Shipping rules (pincodes, rates, free-delivery threshold)
- ☐ Domain DNS access for leafyland.shop
- ☐ Production hosting approval (Vercel + API host)
- ☐ Supabase: disable Confirm email for MVP login

Decisions & Sign-Off

- ☐ MVP scope sign-off (Phase 2 CRM/AI deferred)
- ☐ UAT walkthrough: order, booking, admin, vendor
- ☐ Milestone payment / sign-off alignment

Business & Legal Content

- ☐ Company legal name, address, phone, support email
- ☐ Privacy Policy, Terms, Refund & Shipping policy text
- ☐ Vendor onboarding rules + KYC requirements
- ☐ Production admin emails (replace demo accounts)

Nice to Have Soon

- ☐ Logo / brand kit (if updated)
- ☐ Razorpay webhook URL after API deploy
- ☐ Email provider for order confirmations
- ☐ WhatsApp business number confirmation
- ☐ SEO titles and meta descriptions

Message to share: Platform is built and on Supabase. To go live we need Razorpay keys, GSTIN, real catalog with images, shipping rules, legal text, domain DNS, production admin emails, and MVP sign-off. Payments stay in test mode until Razorpay is connected.

Already done (no action needed): Supabase DB + Auth + Storage, React storefront, admin/vendor dashboards, cart, checkout, service booking.
